1. Call to Order

The meeting was called to order at 12:26 pm.

2. Approval of Priority List for ICSP (Integrated Community Sustainability Plans)

The prioritization of Capital Projects is a requirement of the Government of Nunavut. Discussion took place amongst Councillors to identify the Capital Project priorities of the community for submission in the ICSP process. The following resolution was passed.

MOTION

WHEREAS the Municipal Council has been asked to determine the top ten projects for the community from a list of all department's priority and requirements for the community;

AND WHEREAS, the Hamlet Council does not have enough supporting data for the projects of other departments to be able to fairly prioritize them;

NOW THEREFORE, be it resolved that the Municipal Council has only prioritized projects within the municipality's control, with the exception of the upgrade of the airport including paving of airport runway, taxiways and aprons as it has significant impact on the whole community. The top ten priorities for the 2020/2021 Municipality of Cambridge Bay ICSP priorities are as follows:

1. Construct a new 12 Bay combined service garage complete with mechanic's bay for municipal works.
